

Joe M. Turner

"The Chief Impossibility Officer"

www.turnertalks.com

Fantastic!
Ed McMahon

Unbelievable! Very impressive.
Arthur Blank
Co-Founder
The Home Depot

Of all the training sessions I have attended, yours was without a doubt the most captivating. Our managers will surely benefit from your time-proven methods.
Tom Ruby
Senior Training Consultant
Intercontinental Hotels Group

I attended Joe's workshop and I still use his memory techniques almost on a daily basis. His seminar was fantastic and I would recommend it to everyone. I wish I had these tools when I was in college!
Julia Hall
AVP-Business Relations
Peoples Bank & Trust

Extremely impressed with your creativity... everyone is recognizing the talent you have for mixing business with pleasure.
Bill Christopher
Group President
ALCOA – Aerospace,
Automotive, and Commercial
Transportation

Spectacular... we got overwhelmingly positive feedback...
Tara Wilson
Conference Manager
ECC Conference

Your ability to integrate our objectives into your performances was outstanding! Virtually every evaluation commented on the fun and professionalism you brought to this important event.
Brian D. Moore
Chief Strategy and Quality
Improvement Officer
Mission St. Joseph's Health
System

You can have the next best thing to a *photographic memory*. ... Put your whole brain on Speed Dial!

Corporate magician and speaker Joe M. Turner has performed at the world-famous Magic Castle in Hollywood, at Monday Night Magic in New York, at the Tropicana in Atlantic City, and for hundreds of corporate, civic, and private events nationwide.

Now Joe lets your group in on a powerful, centuries-old technique that you can use to **instantly improve your ability to remember the information you need.**

In "Memory Mojo! – Put Your Brain on Speed Dial!" Joe demonstrates and teaches **mnemonic memory systems** which make it easy for you to remember lists, numbers, dates and appointments, names and faces, and even remember where you parked at the mall or at the airport!

The standard presentation is designed as a two-hour talk with practice exercises to be done as a group, but can be shortened or expanded. Everyone leaves with a new and practical skill that they can put to work instantly. In addition to enhanced memory skills, your group also benefits from increased confidence and higher productivity.
